

Call for original research papers and review articles

SCRIBE 2025

ISSN: 3049-1525 (PRINT)

PEER REVIEWED ANNUAL SCIENCE JOURNAL
SOPHIA COLLEGE FOR WOMEN
(Empowered Autonomous)

We are currently inviting articles (research/review) for publication in SCRIBE 2025 (Vol. 6) which will be peer reviewed. Kindly mail your articles to scribe@sophiacollege.edu.in by 30/06/2026.

Tentative date of publication - November 2026

PLEASE ENSURE THAT THE INSTRUCTIONS FOR AUTHORS ARE FOLLOWED.

INSTRUCTIONS FOR AUTHORS

All articles (research/review) will be subjected to a double blind peer review and the comments will be communicated to the authors.

I. General Instructions

- Original articles should be authored by a UG/PG student (first author) under the mentorship of a Faculty member.
- All UG/PG students should contact their faculty & have approval of 1 faculty who would be corresponding author and who would have inspected the article for clarity, scientific accuracy, relevance, and plagiarism.
- The article should begin with the Title, Authors' Names, Department name, followed by abstract and the body in Word format with font 'Times New Roman', size 12.
- Figures (JPEG format)/ Tables (Word format) should be original in nature for both research as well as review articles, and should be attached separately. Each figure should have a legend, and each table should have a title and a footnote.
- Word count for all articles (research/review) should be minimum 2000 words and maximum 4000 words (excluding references).
- **References should be in APA (American Psychological Association) style within the body of the article and as a list at the end. Please avoid citing websites.**
- **Plagiarism is a serious offence. Authors are requested to check for plagiarism before sending their articles.**
- **Authors will not be able to withdraw the articles once the review process is initiated**

IIA. Special Instructions for 'Research Article'

- These are short/long articles on authors' own work
- Mandatory subheadings: Abstract (unstructured and not more than 250 words), Introduction, Methods, Results, Discussion, Conclusion & References.
- References - minimum 10 and maximum 30 (APA style).

IIB. Special Instructions for 'Review Article'

- These are articles on current trends/any important scientific topic
- Reviews can be either descriptive or systematic. In case of the latter, please include a methods section.
- Subtopics to break the review article are encouraged.
- References - minimum 20 and maximum 50 (APA style).
