

## Minutes of the meeting held on 11<sup>th</sup> April 2022.

The following were the suggestions by the BoS members for the proposed MSc Part 2 syllabus:

- Dr Patil suggested that there should be at least one seminar component as a part of internal assessment between the two semesters.
- Dr Namboothri suggested if possible a small section on agrochemicals could be added in paper III including analysis of insecticides/pesticides etc.
- If agrochemicals can not be added an IA could be conducted on the same.
- Dr Jyoti Patil was delighted that Forensic Chemistry was included in the Syllabus.
